

Introduction to Cybersecurity

The introductory course for those who want to explore the world of cybersecurity.

Table of Contents

Welcome.....	1
Course Overview.....	1
Chapter 1: The Need for Cybersecurity	2
Personal Data.....	3
What is Cybersecurity?	3
Your Online and Offline Identity.....	3
Your Data	3
Medical Records	3
Education Records	4
Employment and Financial Records.....	4
Where is Your Data?	4
Our Computing Devices	4
They Want Your Money	5
They Want Your Identity.....	5
Organizational Data	6
Types of Organizational Data.....	6
Traditional Data	6
Internet of Things and Big Data	6
Confidentiality, Integrity, and Availability	6
Confidentiality	6
Integrity	6
Availability	7
1.2.1.3 Lab – Compare Data with a Hash.....	7
The Consequences of a Security Breach	7
Security Breach Example 1	8
Security Breach Example 2	8
Security Breach Example 3	9
1.2.2.5 Lab – What Was Taken?	9
Attackers and Cybersecurity Professionals.....	10
Types of Attackers	10
Internal and External Threats	11
Internal Security Threats	11
External Security Threats	11
Cyberwarfare	12
What is Cyberwarfare?	12
The Purpose of Cyberwarfare	13
Summary: The Need for Cybersecurity.....	13
Chapter 2: Attacks, Concepts and Techniques	14
Analyzing a Cyberattack.....	15

Finding Security Vulnerabilities	15
Software vulnerabilities.....	15
Hardware vulnerabilities	15
Categorizing Security Vulnerabilities	15
Types of Malware	16
Symptoms of Malware.....	17
Social Engineering.....	18
Wi-Fi Password Cracking.....	18
Phishing	18
Vulnerability Exploitation	19
DoS.....	19
DDoS	20
SEO Poisoning	21
The Cybersecurity Landscape	22
What is a Blended Attack?.....	22
What is Impact Reduction?.....	22
Summary: Attacks, Concepts and Techniques.....	23
Chapter 3: Protecting Your Data and Privacy	24
Protecting your Data.....	25
Protect Your Computing Devices.....	25
Use Wireless Networks Safely	25
Use Unique Passwords for Each Online Account.....	26
Use Passphrase Rather Than a Password	27
3.1.1.5 Lab – Create and Store Strong Passwords	27
Encrypt Your Data	28
Back up Your Data.....	28
3.1.2.3 Lab – Back up Data to External Storage	29
Deleting Your Data Permanently	29
3.1.2.5 Lab – Who Owns Your Data?	29
Safeguarding Your Online Privacy.....	30
Two Factor Authentication	30
OAuth 2.0.....	30
Do Not Share Too Much on Social Media	30
Email and Web Browser Privacy	31
3.2.2.3 Lab – Discover Your Own Risky Online Behavior	31
Summary: Protecting Your Data and Privacy.....	32
Chapter 4: Protecting the Organization.....	33
Firewalls.....	34
Firewall Types	34
Port Scanning.....	34

Security Appliances.....	35
Detecting Attacks in Real Time	36
Protecting Against Malware	36
Security Best Practices.....	36
Behavior Approach to Cybersecurity	38
Botnet	38
The Kill Chain in Cyberdefense	38
Behavior-Based Security	39
NetFlow	39
Cisco's Approach to Cybersecurity	40
CSIRT	40
Security Playbook	40
Tools for Incident Prevention and Detection.....	41
IDS and IPS	42
Summary: Protecting the Organization	42
Chapter 5: Will Your Future Be in Cybersecurity	43
Cybersecurity Legal and Ethical Issues, Education and Careers	44
Legal Issues in Cybersecurity	44
Personal Legal Issues	44
Corporate Legal Issues.....	44
International Law and Cybersecurity	44
Ethical Issues in Cybersecurity	44
Personal Ethical Issues	45
Corporate Ethical Issues	45
Cybersecurity Jobs	45
Before You Go.....	46
Summary: Will Your Future Be in Cybersecurity?	46
